

PLUSSOUND

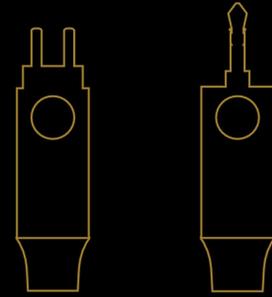

CUSTOM CABLES
QUICK START GUIDE

Thank you very much for your purchase

You are the owner of the highest quality custom cable on the market today. Every cable is designed and hand assembled in Los Angeles, California, USA and includes the following specifications:

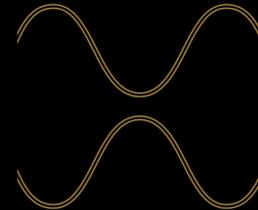

Proprietary wire design

In-House designed connectors and terminations

Anodized Aluminum Hardware

Single ended and balanced outputs

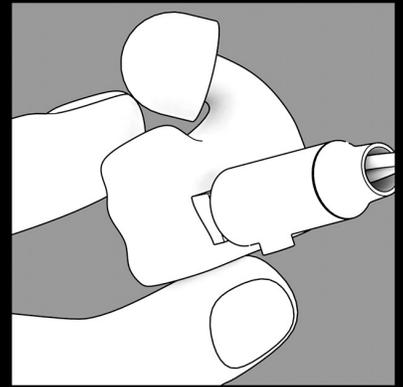

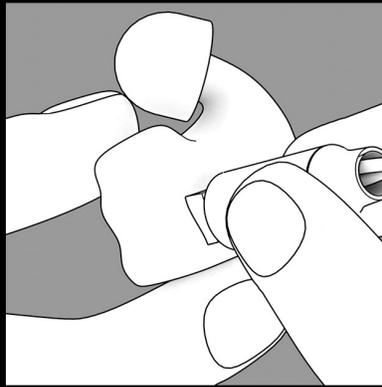

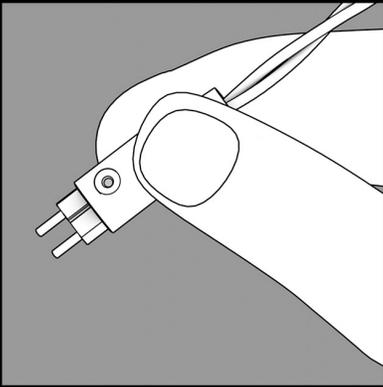

All-purpose use

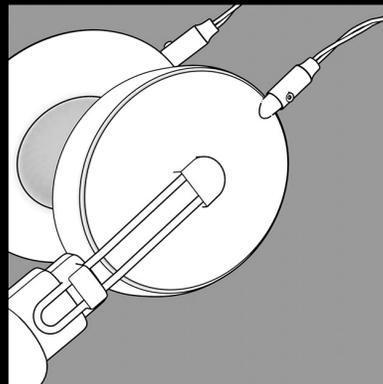

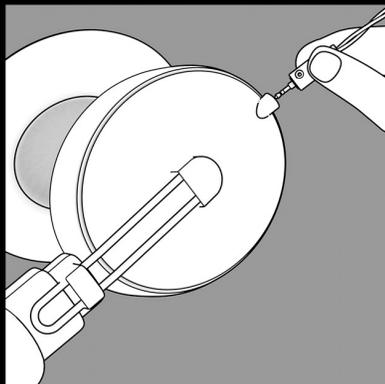

Optimized for IEMs and Full-Size Headphones

INSTALLATION

For earphones: Left and right is determined based on the specific indicator colors you have chosen for your cable. Connectors with locking screws must have screws face outwards. Connectors without locking screws and/or have heatshrinks must have the PS logo face outwards.

For headphones: Left and right is determined based on the specific indicator/heatshrink colors you have chosen for your cable. Review order details if unsure.

Once connected, avoid repeated removal and insertion of cable unless absolutely necessary. Cable works best and last longer when it is not heavily abused, bent, pulled, twisted, or dropped.

SAFETY PRECAUTIONS

Do not place very heavy objects over the cable.

Avoid places with moisture, dust, or smoke.

Avoid exposing the cable to direct sunlight or extreme temperatures.

Keep clean and store in cool area after each use.

Never use chemical or cleaning products on the cable or it will alter surface.

Avoid dropping or exposing cable to strong vibrations.

If the cable gets wet (rain, water, chemical, etc.) allow it to dry.
If it does not work, contact PLUSSOUND for further instructions.

If you experience ringing in your ears, lower the volume or stop listening until it goes away.

Do not listen to music at excessive volume. Protect your ears.

Use in safe environments to avoid accidents.

Be aware of your surroundings especially outdoors while using your setup.

Do not modify or tamper the cable. This will void warranty and may result in unnecessary damaging of components.

Keep this product out of reach of small children.

WARRANTY

All custom cables have a one-year warranty on parts and labor due to manufacturing faults from the date of original shipment. This warranty is available if purchased directly or from an authorized dealer or distributor. If the product is found to be defective, PLUSSOUND will repair or replace product at own discretion. PLUSSOUND, importer, and distributor shall not be liable for damages as a result of improper use or operation of this product. Wear and tear, loss, theft, misuse, abuse, or modifications performed by anyone other than PLUSSOUND are not part of the warranty. The user is responsible for following proper instructions and precautions provided in this guide. All information was written based on current product specifications. If you experience issues, you must visit the website at www.plussoundaudio.com and click on Information > Contact to fill out form or by email at sales@plussoundaudio.com.
